Dear Mike

Re: Trophy Stags

The Stags I viewed on your farm are very impressive this year. Your breeding sires for trophy animals are some of the best I have seen in the country this season.

These are the type of trophy heads that my clients want to hunt – long, thick beams, and wide, big bodies. Unfortunately, it is difficult to find enough of this type of trophy in the country.

I hope you continue to breed them for us.

Best regards

Maximilian

Pure Eastern shown at 7 years (Deceased 2005)

This super sire has changed the face of Eastern breeding. A spectacular 392kg at 6 years with 13.1kg H/A, his first crop of sons were up to 256kg, antler spread 46", antler weight 9.05kg, with prices up to \$53,000. In our January 06 sale we had a remarkable Maximilian son with antlers at 48.5" wide and 24 points. He made \$40,000 purchased by Ross Green.

Of all the Eastern sires we have bred with since 1984 Maximilian is indisputably No.1, especially with 262kg 2yr olds with +24.9 BVs like 03152 purchased by Mike Wilkins and 25 points as in 2007 sale. Sire of many high ranking sires including a number of No1. BVs He is currently at +20.8 himself

Sergei

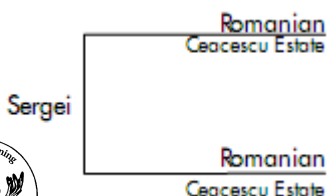

Shown at 10 years (deceased)

Sergei was a pure Romanian outcross to the Romany and Alexei lines. Taken as a trophy in 2007, 262 CIC points, the unofficial No. 5 ranked trophy for CIC.

His notable sons have sold to \$37,000. However in January 2008 he produced two spectacular stags with the heaviest full antler sale heads recorded at the stud, 10.4 and 11.25kg and up to 250kg liveweight purchased by Jim Scourgie and John Carter. In addition, we kept a super good Sergei son Vladimir. Milan is out of a Sergei daughter

Romany

Shown at 8 years (Deceased)

Pure Romanian shown at 8 years Romany cut 8.15kg at 7 years in 2002 and weighed in at a massive 345kg. He is very quiet in temperament, heavy in beam with massive lower tyne. Romany makes the ideal dual purpose animal for venison and velvet, but also, it is this type of head that is so important to breed with English deer to create the super trophy. Two years ago he produced a fantastic 2 year old with 19 points and S.A. beam thickness.

In 2003 Romany produced two of the most outstanding Eastern 2 year olds ever seen including the heaviest antler in the entire sale, heading off even the English! 1044 with 9.4kg antler 203kg at \$21,000, plus 1068 with 8kg antler 219kg at \$12,000.

Romany was sadly destroyed in 2006.

Maximilian II

Shown at 4 years

Tremendous son of Maximilian by a Romany daughter 261kg at 2 years with 8.1kg stripped antler.

Chosen as the first replacement for Maximilian and a delight in temperament. His BVs is +18.2.

The first sons of Maximilian II in January 2008 were very, very good.

Heinrich VI

Shown at 6 years

Unbelievable antlered Eastern sire for age, showing the fabulous cross of Heinrich over Maximilian. At 5yrs a remarkable 56" wide, 47" long, 37¼" span, 12.5k.g. H/A and 469 SCI. This sire has the potential to hit 50" x 60" plus easy. His first crop of sons showed the same wide and heavy characteristics. He is very quiet as well.

Milan

Shown at 3 years

Outstanding son of Maximilian by top Sergei daughter. Big, quiet, top antlers with an SCI score of 394 points and BV of +9.91. This is a top all round sire. First sons in 2009 and his spikers are very heavy and multipointed.

Ramon

A brand new pure Hungarian sire purchased from Mt Hutt station.

Ramon descends from the great Kapos and his key attribute is very heavy antler cutting 10.35kg of FS at 5 years.

Sadly he has died, but not before mating a full bench of hinds and we look forward to this outcross breeding in the herd

His 12mth BV was 14.1

Vladimir

Shown at 4 years

The two heaviest antlered deer we have ever breed were Lot 1 and Lot 2 in the 2008 sale both East European with 10.4 and 11.25kg of antler and made \$28,000 and \$27,000 respectively. Remarkably however we kept our favourite named Vladimir son of Sergei by Maximilian daughter. 253kg liveweight and 7.3kg H/A stripped with a very heavy beam and with top BVs at +17.71. He is incredibly quiet and a wonderful new asset to the herd.

42" long and 32" inside @ 4 yrs

Estimated 7+ kgs velvet@ 4 yrs which also reflects the thickness of beam in this antler

Megamilian

(152/Y/03) shown at 3 years

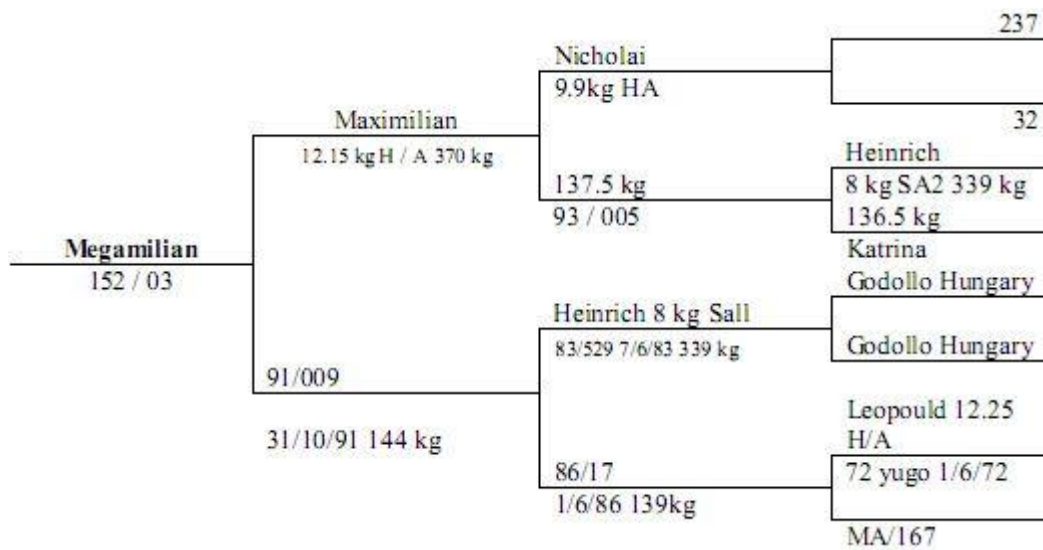

No 1 EBV 2 year old at Stanfields 2006 stag sale with a huge head.

This stag has to be one of the rising stars in the EBV's rankings. 262 kgs at 2 yrs which was quoted as a World Record weight for his age at the time of his purchase at Auction in 2006!

This Stag has a current Deer Select 12 mth BV of 24.9

Amazingly quiet and thick set stag with good deep body conformation.

He has a large number of progeny across a number of herds which gives us confidence in the accuracy of his BV
